Information

The UK's largest stroke thrombectomy symposium returns for another fascinating and educational event, this year hosted at the prestigious 1 Wimpole Street, home to the Royal Society of Medicine.

The hybrid event will continue to showcase breakthroughs in hyperacute stroke care. We are excited to announce a range of informative sessions and discussions featuring a variety of outstanding UK and international speakers.

The symposium is suitable for doctors, radiographers, nurses and allied health professionals involved with or interested in acute stroke management.

Don't miss this unique opportunity to enhance your knowledge, network with peers, and be at the forefront of stroke care.
